

## **NOAH'S ARK**

2016 saw many of the children who had been with Noah's Ark leave and start on their school journey. This created a time of change and saw an influx of new families join us regularly on a Wednesday morning from September. We have 24 children registered with us who attend regularly. Two Mum's are off due to new arrivals but they will be back during the year. All of the children have an association with the Benefice either through parents or grandparents who live within the surrounding villages.

We continue to offer a regular craft or activity every week, and as an example this week there will be a "mothers day" craft for the children to take away.

The group of mums and grandparents that we have provide a nice support group for each other and the feedback both Jean and I receive about Noah's Ark is lovely and everyone comments on how nice a group we have.
